

# Invited Lecture

## **Desulphurization and Upgrading of Bitumen Emulsions using in situ Hydrogen and Nano dispersed Mo Catalysts**

**Speaker: Prof. Flora Ng**

**Fellow of the Royal Society of Canada  
Member of the International Association  
of Catalysis Societies University  
Research Chair**

University of Waterloo

Email: [ftng@uwaterloo.ca](mailto:ftng@uwaterloo.ca)

HP: <http://chemeng.uwaterloo.ca/faculty/ng.html>

**Time: 14:30p.m., May 24, 2011 (Tue.)**

**Address: 308 room in the New Building, IPE**

### **Brief Introduction:**

**Professor Flora Ng is a Fellow of the Royal Society of Canada, Chair of the Catalysis Division of Chemical Institute of Canada and member of the International Association of Catalysis Societies. She has been at work on green energy processes and at the forefront of research into catalytic distillation for 20years. The process used by the 220,000-tonne chemical plant.**
